100ul;

UniProt : P01588

Alternative Names:

EP; Epoetin; Erythropoetin; Hematopoietin; Hemopoietin

Application:

Reactivity : Human

Application : WB IHC IF

Dilution:

Western blotting: 0.5-2 μ g/mL
Immunohistochemistry: 5-20 μ g/mL
Immunocytochemistry: 5-20 μ g/mL
Optimal working dilutions must be determined by end user.

Purification:

Antigen-specific affinity chromatography followed by Protein A affinity chromatography

Storage Condition and Buffer:

0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.

Tag : Cytokine;Endocrinology;Hematology;Hormone metabolism;

Form : Liquid

Concentration : 500 μ g/mL
