100ul;

UniProt : P02671

Alternative Names : Fib2; FG-A; FGA; Fibrinopeptide A

Application:

WB

0

Reactivity : Human

Application : WB IHC IF

Dilution:

Western blotting: 0.2-2 μ g/mL;1:250-2500

Immunohistochemistry: 5-20 μ g/mL;1:25-100

Immunocytochemistry: 5-20 μ g/mL;1:25-100

Optimal working dilutions must be determined by end user.

Purification:

Antigen-specific affinity chromatography followed by Protein A affinity chromatography

Storage Condition and Buffer:

PBS, pH7.4, containing 0.02% NaN₃, 50% glycerol.

Tag : Metabolic pathway;Hematology;

Form : Liquid

Concentration : 500 μ g/mL
