□ 100ul;

UniProt : Q28833

Alternative Names : F8VWF; VWD; von Willebrand antigen 2

Application:

Reactivity : Pig

Application : WB IHC IF

Dilution:

Western blotting: 0.5-2 μ g/mL;

Immunohistochemistry: 5-20 μ g/mL;

Immunocytochemistry: 5-20 μ g/mL;

Optimal working dilutions must be determined by end user.

Purification:

Antigen-specific affinity chromatography followed by Protein A affinity chromatography

Storage Condition and Buffer:

PBS, pH7.4, containing 0.02% NaN₃, 50% glycerol.

Tag : Signal transduction;Hematology;

Form : Liquid

Concentration : 500 μ g/mL
