Description:

S-tag is the name of an oligopeptide derived from pancreatic ribonuclease A. The amino acid sequence of the S-tag is: Lys-Glu-Thr-Ala-Ala-Ala-Lys-Phe-Glu-Arg-Gln-His-Met-Asp-Ser. It is believed that the peptide with its abundance of charged and polar residues could improve solubility of proteins it is attached to. This antibody recognizes the s-tag fused to either the amino- or carboxy-terminus of targeted proteins.

Antibody type : Mouse monoclonal Antibody

Isotype : Mouse IgG1

Storage buffer:

1*PBS (pH7.4), 0.2% BSA, 40% Glycerol. Preservative: 0.05% Sodium Azide.

Form : Liquid

Concentration : 2 mg/mL.

Purity : Protein G affinity purified.

Alternative names:

KETAAAKFERQHMS tag antibody

antibody

S peptide antibody

S peptide epitope tag antibody

Positive control : S-tagged recombinant protein.

Recommended dilutions : WB: 1:5,000

Storage:

Store at +4°C after thawing. For long-term storage, please store it at -20°C. Avoid repeated freeze / thaw cycles.
