Description:

Well-characterized antibodies for epitope tags have been widely used in the study of protein expression in various systems. The Avi tag is a biotin-acceptor peptide¹, GLNDIFEAQKIEWHE. The 15-residue peptide served as a substrate mimic for biotin ligase (BirA), which usually recognizes the much larger protein domain.

Antibody type : Rabbit polyclonal Antibody

Isotype : Rabbit IgG

Storage buffer:

1*PBS (pH7.4), 0.2% BSA, 40% Glycerol. Preservative: 0.05% Sodium Azide.

Form : Liquid

Concentration : 1 mg/mL.

Purity : Peptide affinity purified.

Positive control : Avi- tagged fusion protein

Recommended dilutions : WB: 1:10,000;ELISA: 1:10,000

Storage:

Store at +4°C after thawing. For long-term storage, please store it at -20°C. Avoid repeated freeze / thaw cycles.
